INSURGENTS SCORNE

So Dalzell is to be chairman of the new rules committee of the lower house of congress.

Who is Dalzell? The chief lieutenant of Speaker Cannon on the old rules committee that was controlled absolutely by Cannon.

Not one of the "progressive" Republican congressmen, known also as "insurgents", was put on the committee. All of the majority members of the committee are known as "regulars" because they stand by Cannon.

How did that happen? Why, the slate that was put through the Republican caucus was fixed up by that other loyal supporter of Cannon and "the interests", Jim Tawney of Minnesota, the only Republican congressman from the Northwest who voted for the Taft-Cannon-Aldrich tariff. It was at Jim Tawney's home, Winona, you remember, where President Taft made that astounding speech last summer in which he first declared that the new tariff law "is the best tariff ever enacted by the Republican party," and practically read out of the party all of the Republican congressmen who did not vote for it.

Of all men Tawney was the richest of right "regulars" to fix up a slate for the new rules committee. Look at the list: Dalzell of Pennsylvania, J. Sloan Fassett of New York, Lawrence of Massachusetts, Boutwell of Illinois, Smith of Iowa, and Smith of California, all "regulars" of the most regular type; and Dalzell becomes chairman through seniority of service.

Are you fool enough to believe that it just happened that Dalzell got to be chairman of the new committee because he has been in congress longer than the others? Or do you suspect that Cannon had something to do with the slate made up by Tawney and that Dalzell was picked with special reference to his seniority so that Cannon would have his chief lieutenant at the head of the new rules committee?

What a farce all this fight of the "insurgents" against Cannon turned out to be at the finish. Cannon defying the house to depose him and being retained by a vote of all the Republicans except eight, a larger vote than he received when he was re-elected speaker last year; and now a rules committee with his own henchmen in the majority and the chief of them all for chairman to do his bidding on the floor without his being held personally responsible.

Oh, you "insurgents" in congress! What a laughing stock Cannon has made of you and called you cowards besides. You have succeeded only in proving that the only way to insure against cannon is to elect a Democratic congress next November.

POINTS THE RIGHT WAY

Did you see how that Republican stronghold in Massachusetts elected a Democrat to congress?

The election of Eugene N. Posa of Boston, an advocate of reciprocity with Canada, by a majority of nearly 6,000 in a district heretofore showing a Republican majority of over 14,000, should cause Willie of the White House to sit down and think.

The new Taft-Cannon-Aldrich tariff, which our president has repeatedly said is "the best tariff law ever enacted," is blamed, Washington lays it to Cannonism. The cost of living also figures in the result. All these reasons are stated in a Republican newspaper.

It was freely charged by the Democratic campaigners that the new tariff and failure of the Republican party to properly control the trusts are mainly responsible for the high cost of living. Senator Lodge went into the district and offered the Taft apology that the increase in the cost of

living has occurred principally on articles upon which the tariff was lowered, but it failed to fool the people.

Like the chairman of the food price investigating committee of the Ohio legislature, who refused to go into the tariff as a factor in the increased cost of living, the defeated candidate for congress in rock-ribbed Republican Massachusetts is the publisher of a Republican newspaper. Republican voters of Massachusetts have pointed the way for Republican voters of Ohio at the coming election. Every Republican congressional district in Ohio should follow the Massachusetts example and send a Democrat to congress next time.

KNOX COUNTY'S REPRESENTATION

At the Democratic state convention this year Knox county will have a larger representation than it has ever had in any previous convention. The basis of representation is one delegate for each 500 votes and major fraction cast for Judson Harmon for governor two years ago. At that election Harmon received 4337 votes in Knox county, so that the county will be entitled to nine delegates. The convention will be held at Dayton on June 21 and 22, and Allee Pomerene of Canton will be temporary chairman.

EGG ROLLING AT WHITE HOUSE

Washington, D. C., March 28.—In accordance with the custom originated by President Lincoln the grounds of the White House were thrown open today for the annual Easter Monday egg-rolling festival. To give the children as much room as possible for their sport and frolic, adults, unaccompanied by children were not permitted to the grounds. Several thousand children of all ages and colors availed themselves of the opportunity to roll their eggs on the lawns around the White House and play all kinds of delightful games. In the most democratic fashion the children of millionaires mingled in their joyful sport with the children of the poor and for the once all distinctions of wealth, station or race were wiped out. President and Mrs. Taft took great interest in the frolics of the children and frequently watched them from the windows of the White House. In the afternoon there was a band concert in the Ellipse south of the White House grounds, which attracted a large number of persons.

LEAVES DEFICIT IN STRONG BOX

General Appropriation Bill Appears In House.

SURPLUS GOES GLIMMERING

Finance Committee Pares Expenses to the Limit and Yet Expenditures Will Exceed Receipts by More Than Million and a Half Dollars. Ohio Labor Unions Put Up Hot Fight Against Measure to Re-establish Convict Labor System.

Columbus, O., March 26.—Members of the Ohio general assembly, fatigued by their arduous duties of the present session, hailed with delight the appearance in the house of the general appropriation bill, which is the usual sign that the session is drawing to a close, just as the first robin is welcomed as the harbinger of spring. This is one piece of legislation that must be disposed of before the legislature adjourns sine die. It will go to the senate late next week unless there is an unusual fight on it in the house, and on the time the senate spends on it depends the length of the session.

The bill carries \$8,785,842, as against \$8,363,000 last year, and, with an income of but \$7,206,880 in sight, means a deficit of over a million and a half checked up against the rapidly dwindling state surplus. The committee says that the bill represents the most rigid economy and an absolute elimination of new items of expenditure.

Representatives of union labor organizations are besieging members of the legislature in a determined effort to kill the Welling convict labor bill. The bill would repeal the Vertz law and put into effect the same labor conditions in the Ohio penitentiary as prevailed prior to the enactment of that law.

TAFT CONFERS WITH OHIOANS

Summons Members of Buckeye Delegation to White House.

ASKS THEM TO HELP BOOST

In Heart-to-Heart Talk With Congressmen From Home State, President Tells What Legislation He Wants Enacted at Present Session and Says It Is Duty of Republican Members From Ohio to Help Redempt Party Pledges.

Washington, March 28.—Practically the entire Ohio congressional delegation has been appealed to personally by President Taft to help him put through the administration program at this session. Every member of the delegation who was in the city was present. The conference was called quietly and did not begin until late. The congressmen went to the White House one by one, apparently not knowing in advance that a general call had been issued.

The president made it plain to his visitors just what he wished congress to do. The measures which have been mentioned so frequently, the amendments to the Hepburn law, the postal savings bank bill, an anti-union bill, statehood bills for Arizona and New Mexico, the president would like to have enacted. He asked the delegation from his own state to come to his aid and help. He asserted, it was said, that it was up to the Republican party to live up to its Chicago platform, and the Republican congressmen from his own state should be ready to stand by to take its part in carrying out these pledges.

Ohio politics were not mentioned at all, it was said. Whether or not the president intends to call other state delegations to the White House for similar heart-to-heart talks was not disclosed. He is anxious about his legislative program, it was said, and may adopt this method of getting action.

HOLD THANKSGIVING SERVICES TOO SOON

Lava Stream Diverted to Village Beyond Danger Line.

Catania, March 26.—When within two miles of the town of Borelli, the lava stream from Mount Aetna suddenly changed its course and flowed around the hills. It is now descending in the direction of Nicolosi, the inhabitants of which thought themselves safe. They held a thanksgiving service, but are now terror-stricken. Their only hope is that the progress of the fiery stream will be impeded by Monti Rosi, but the lava at present is heading straight for Nicolosi.

Cardinal Francis-Nava, archbishop of Catania, is taking from Catania the miraculous veil of Saint Agatha to Nicolosi and Bellipasso. The inhabitants believe that it will stop the flow of lava. Their faith will be strengthened if the prediction of Signor Mercalli, the Neapolitan volcanist, is verified. He believes that the outbreak is a normal recurrence of the eruption of 1908, and that it will be of short duration. Professor Rico, on the other hand, thinks it will be more serious.

TALK TARIFF WITH TAFT

High Officials Come From Canada to Avert Commercial War.

Washington, March 26.—W. S. Fielding, minister of finance, and George P. Graham, minister of railways of Canada, reached Washington and will confer with the president and others today in an effort to avert the threatened tariff war between the United States and her neighbor.

That a temporary solution of the tariff problem will be reached soon is believed here. Every one at all familiar with the negotiations is of the opinion that Mr. Taft and Mr. Fielding will find a way out of the difficulty.

Wants Ballinger to Testify. Washington, March 26.—As soon as the Ballinger-Pinchot investigation committee met, Attorney Brandeis, representing Louis R. Glavis, sprang a surprise by requesting that Secretary of Interior Ballinger be called as one of his witnesses. Mr. Brandeis stated at first that he wished to identify Mr. Ballinger two letters he desired to introduce in evidence at this time. Counsel for Mr. Ballinger objected, and the committee took the matter under advisement.

Remembers Ohio Friends. Washington, March 26.—Among the nominations sent to the senate by the president appear the names of William Walter Smith of Ohio to be third secretary of embassy at Constantinople; Richard C. Bundy of Ohio, secretary of embassy at Monrovia, Liberia.

The Spring Furnishing

There's hardly a woman who is not thinking about something new for her house this spring. A new Rug or two, fresh Curtains, a parlor Carpet, or at least Linoleum for the kitchen. We already have a number of fine contracts under way, and many Rugs and Furnishings laid away for delivery later. Don't wait until you want the goods. There is so much work connected with the carpet business, that if it is done well it takes time. We hope to see you in our Carpet Department this week.

FLORIDA TO HAVE BRILLIANT LAUNCHING

New York, March 28.—The constructors and men building the battleship Florida at the Brooklyn Navy Yard are jubilant over the progress made and are anxiously awaiting May 12, when the big battleship will glide into the East River on her maiden plunge.

The launching of the Florida will be one of the greatest events in the history of the navy yard if the plans of the commandant and Naval Constructor Baxter, in charge of building work, are carried out. Invitations have been sent to President Taft, his cabinet and nearly every naval officer of prominence. The Governor of Florida, his staff, and the members of the Florida delegation in Congress will be on hand. Miss Helen Gould and Miss Anna Morgan, who have been liberal in their benefactions to the Naval Y. M. C. A., are expected to be present at special guests of honor.

The navy yard officials believe the launching should be as elaborate as possible on account of the Florida being the largest American battleship, except the Utah, her sister ship. When she is finished and placed in commission she will be 1,000 tons larger than any battleship in service, and until the 26,000-ton Arkansas and Wyoming are completed the Florida will be queen of the seas.

The Florida is the first battleship to be constructed in a government navy yard since the Connecticut was completed at the Brooklyn yard nearly a decade ago. The navy yard officials are in hopes that when the Florida is finished and placed in commission they will be given the contract to build even a larger battleship than the Florida or her successors of the 26,000-ton class.

MILBURN-HOLLINGS-WORTH WEDDING

New York, March 28.—Of the numerous Easter Monday weddings celebrated in the metropolis today the most notable from the society point of view was that of Miss Anne Scarborough Hollingsworth, daughter of Mr. and Mrs. Ralph Hollingsworth, and Ralph Milburn, son of John C. Milburn, formerly of Buffalo, but now resident in this city where he is engaged as chief counsel of the Standard Oil Company. The wedding was celebrated in the Chantry of Grace church and was followed by a large reception at the home of the bride's parents.

WESTERN CANADA

Senator Dolliver, of Iowa, says:—

"The stream of emigrants from the United States to Canada will continue to increase."

Senator Dolliver recently paid a visit to Western Canada, and says: "There is a large number of English-speaking people in this country, and the removal of so many Iowa farmers to Canada, the excellent climate, the excellent soil, the excellent water, and the excellent land, will result in a large number of Iowa farmers settling in Canada."

Grain growing, mixed farming, stock raising and dairying are all profitable. Free homesteads of 160 acres are to be had in the very best districts. 100 acre pre-emption at \$3.00 per acre within certain limits. Schools and churches in every settlement. Climate moderate, soil the richest, wood, water and building material all free.

For particulars as to location, free settlers' railway rates and descriptive literature (including map) of the West, and other information, write to R. J. of Immigration, Ottawa, Can., or to Canadian Government Agent.

A FINE CANTATA

An exceptionally fine rendition of the sacred cantata, "The Soul Triumphant," by Shelley, was given Easter evening by the Congregational church choir under the direction of Mrs. Iva Sproule Baker and was listened to by a large and appreciative audience. This was the third of a series of song services which have been given during the Lenten season and they have been most helpful and inspiring to the congregation. Mrs. Baker and her choir have excellently trained singers and deserve unqualified praise and congratulations for the manner in which they are able to render high class and difficult music.

Poole, one of the best known officers of the corps of engineers, severed his connection with the army today, having voluntarily resigned to engage in business. Captain Poole is a native of Michigan and graduated from the West Point academy in 1901. He was formerly one of the military aides to the President and superintendent of the State, War and Navy Department Building in this city.
